School Building Leader Program

- Administration & Supervision

Teacher and School Building Leader Preparation Program Data

All Reports:

[View All Reports](#) | [View All Graphs Only](#)

Demographic Information:

[View Report](#)

Presents the total enrollment percentages by ethnicity and gender for all teacher and school building leader preparation programs at this institution.

Certification Exam Pass Rates:

[Undergraduate](#) | [Graduate](#) | [School Building Leaders](#)

Presents the percentage of test takers who passed the Liberal Arts and Science Test (LAST), the Assessment of Teaching Skills - Written (ATS-W), the Content Specialty Tests (CST), and the School Building Leader (SBL) test. The statewide averages for these exams are also provided.

Certification Exam Pass Rates for Content Specialty Tests by Subject:

[Undergraduate](#) | [Graduate](#)

Presents the percentage of all test takers over a three year period who passed the Content Specialty Tests (CST) by subject and by certification area. The statewide averages for these exams are also provided for the most recent year for which data is available.

Employment:

[Undergraduate](#) | [Graduate](#) | [School Building Leader](#)

Presents the percentage of candidates receiving certification within 18 months of program completion, who were employed in NYS public schools only who in the first, second, third, fourth, and fifth year after receiving certification. Statewide aggregations are also provided.

Employment by Need/Resource Capacity (N/RC) Categories:

[Undergraduate](#) | [Graduate](#) | [School Building Leader](#)

Presents the employment distribution of candidates receiving certification within 18 months of program completion by Need/Resource Capacity (N/RC) categories for each given year. The statewide aggregates are also provided.

Business Rules:

[View Business Rules](#)

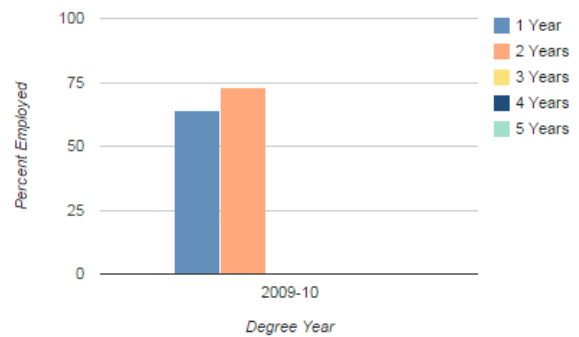

Presents definitions and additional information relating to specific data and datasets utilized.

Comments: This is for academic year 2010-11. These are our program completers that were reported on our Title II Report for that year.

School Building Leader Employment

School Building Leader Employment in NYS Public Schools 1-5 Years Post-Certification 2010-2011

Comments: I omitted 2007-08 because all were reported as 100%. It had to be a data error.

Comments: I omitted 2007-08 because all were reported as 100%. It had to be a data error. The interpretation of this is positive. For candidates who completed in 2008-09 about 35% had a **NY public school** administrative job at the end of year 1, about 80% at the end of year 2, and 90% at the end of year three. For candidates who completed in 2009-10, close to 70% had a job by the end of year 1 and just under 75% by the end of year 2. For those that completed in 2010-11, about 76% had a NY public school administrative job at the end of year 1.

Below are the data for SBL in chart form. The second chart shows the county of employment for school building leaders. The vast majority end up in Erie County. We are also getting a foothold in rural counties.

Percent Employed in NYS Public Schools 1-5 Years Post Certification

Degree Year	2006-07	2007-08	2008-09	2009-10	2010-11	Statewide 2011
Employed 1 Year	0%	100%	38%	64%	78%	74%
Employed 2 Years	0%	100%	85%	73%	0%	82%
Employed 3 Years	0%	100%	92%	0%	0%	83%
Employed 4 Years	0%	100%	0%	0%	0%	84%
Employed 5 Years	0%	0%	0%	0%	0%	80%

New York State Public School Building Leaders in 2011-12, Employment by County
Candidates completing degrees in 2006-07 through 2010-11

County	2011-12	Statewide 2012
Erie	71%	3%
St. Lawrence	14%	< 1%
Chautauqua	14%	1%
All Others	0%	0%

Most of our SBL completers end up in “average school districts” or large cities that are not NYC. Give the percentage in Erie County, we can assume that most are in the Buffalo Public Schools.

Count of School Building Leaders

Degree Year	2006-07	2007-08	2008-09	Statewide 2008-09

Low	0%	0%	8%	11%
Charter Schools	0%	0%	0%	0%
BOCES	0%	0%	0%	5%

UNDERGRADUATE TEACHER EDUCATION

Comments: Undergraduate completers from 2006-07 had about 25% placed by the end of year 1. This rose to just under 50% for year 2 and stayed consistent for years 3-5. This seems to show that our completers persist in their jobs. Unfortunately, the shift in the job market for teachers is evident for those completing 2008-2011. Only about 12% were placed in NY public school jobs in 2008-09 and even fewer in subsequent years. It is positive that the placement numbers continue to increase year over year, which means that our completers do persist, but the weakness in the job market is clear.

It should be stressed that this does not include private schools or out-of-state schools. The data in table form is shown below.

Percent Employed in NYS Public Schools 1-5 Years Post Certification

Degree Year	2006-07	2007-08	2008-09	2009-10	2010-11	Statewide 2011
Employed 1 Year	25%	17%	12%	6%	4%	9%

BOCES	2%	4%	5%	4%

GRADUATE EDUCATION

Employment

Graduate Employment in NYS Public Schools 1-5 Years Post-Certification
2010-2011

Institution: Canisius College
Institution ID: 80000052570

Comments: Our graduate completers are placed at roughly half the rate of our undergraduate completers. At the end of year 1 for 2006-07, about 25% had been placed, and the number persisting remains steady through the first 5 years. Similar to undergraduate, placements by the end of year 1 shrunk about 50% to about 13%. There are slight increases in subsequent years so, again, it appears that Canisius teachers do successfully persist.

It should be noted that this is only NY public school data. It does not include private schools or out of state schools.

The charts below show the graduate placement data in chart form.

Percent Employed in NYS Public Schools 1-5 Years Post Certification

Degree Year	2006-07	2007-08	2008-09	2009-10	2010-11	Statewide 2011
